Management Discussion and Analysis

India's macroeconomic environment continues to remain challenging with deceleration in GDP growth rates. Moreover, GDP forecasts have been lowered with the Reserve Bank of India surveyors now forecasting a GDP growth rate of 4.8% for fiscal 2013-14. Other macroeconomic headwinds such as high inflation and adverse currency movement still persist, though the pressure on INR has somewhat moderated recently. But, inflation continues unabated with Consumer Price Index (CPI) based inflation at nearly 10% during H1 2013-14.

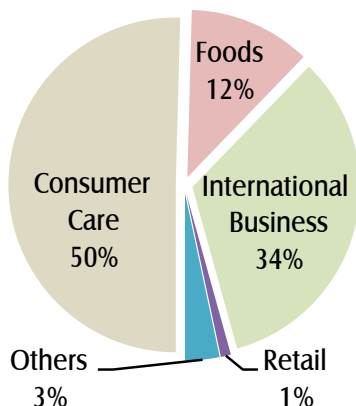

Macroeconomic headwinds have started to have an impact on the FMCG sector with syndicated reports indicating deceleration in growth rates in the last few quarters and that too more pronounced in urban markets as compared to rural markets.

Dabur Performance Overview

Dabur continued to perform well with Net Sales growing by 13.9% to Rs. 3,399.9 crores in H1 2013-14, largely driven by volumes. Material costs to sales ratio was lower at 47.5% in H1 2013-14 as compared to 49.7% in H1 2012-13. Strong investments behind our brands continued with Advertisement & Publicity as percentage of sales increasing to 14.2% in H1 2013-14 as compared to 13.7% in H1 2012-13. Driven by lower material costs to sales ratio, EBITDA margins expanded to 18.3% in H1 2013-14 as compared to 17.4% in H1 2012-13. Profit After Tax (PAT) grew by 23.9% to Rs. 435.7 crores in H1 2013-14.

Sales Breakdown (H1FY14)

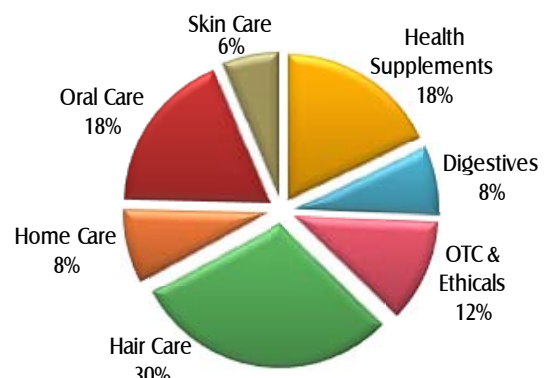

Consumer Care Business

The Consumer Care business in India which contributes to half of consolidated sales grew by 12.4% in H1 2013-14 driven by strong growth in Health Supplements, Digestives, OTC & Ethicals, Home Care, Oral Care and Skin Care. Some of the key launches in H1 2013-14 were Hajmola Anardana variant, OxyLife Gel bleach, Vatika Enriched Coconut Hair Oil with Hibiscus and OxyLife bleach for men.

Category-wise Growth Rates -H1 2013-14

Category Contribution (H1FY14)

Some of the key products launched during H1 2013-14 in the International Business were Vatika Hair Mayonnaise, Vatika Crème Hair Colors and a range of Shampoos and Conditioners under Amla.

Sales & Distribution

As part of our rural distribution enhancement initiative - Project Double - we have expanded our direct coverage in terms of

villages stood at 36,196 villages as on September 2013 as compared to 14,865 villages as on March 2011. The initiative is has enhancing our presence in the hinterland and we are witnessing improved momentum in sales.

Manufacturing

Our manufacturing plant in Sri Lanka commenced production during H1 2013-14. This will help us cater to the Southern India markets for juices more efficiently. In addition, we are nearing completion of our manufacturing facility in Bangladesh to cater to the local market there.

We continue to undertake initiatives to improve sustainability, encompassing energy and water conservation aspects. Some of these have been commissioning of Bio Briquette boilers and reuse of ETP treated water in cooling towers at our plants.

Overall we were able to manage the challenges of inflation, adverse currency movements and deceleration in growth rates in the FMCG sector in H1 2013-14 and reported double digit revenue and profit growth. Continued investments behind brand building and strengthening of our distribution network should enable us to perform well going ahead.
